1 Snapshot

What the business does: Oberoi Realty builds and sells premium and luxury apartments, almost entirely in the Mumbai Metropolitan Region (MMR) — Goregaon, Borivali, Worli, Thane, Mulund — and has just made its first move outside Mumbai, into Gurugram in the National Capital Region (NCR). Alongside that it owns and rents out a portfolio of *annuity assets*: buildings it keeps rather than sells, and collects rent on forever. Those are three office towers (Commerz I, II and III), two shopping malls (Oberoi Mall in Goregaon and Sky City Mall in Borivali) and a hotel. So there are two engines: a lumpy, launch-driven **development** business, and a small but steady, very high-margin **rental** business.

Measure	Value	What it means in plain words
Market cap	₹67,698 cr	What the whole company is worth on the stock market — a large-cap developer.
FY26 revenue (consolidated)	₹6,009 cr	Total sales in the year to March 2026, up 13.7% on FY25's ₹5,286 cr. Third straight double-digit year.
FY26 net profit	₹2,507 cr	Profit after all costs and tax, up 12.6%. That is 42 paise of profit per rupee of sales — extraordinary for a developer.
Q1 FY27 revenue / profit	₹1,301 cr / ₹544 cr	The June 2026 quarter: revenue up 32% and profit up 29% on the same quarter last year.
Q1 FY27 **pre-sales**	₹1,050 cr	The rupee value of homes booked by customers in the quarter — the forward-looking number. Down 36% from ₹1,639 cr a year ago. This excludes the Gurugram launch (see below).
Three Sixty North bookings	₹8,109 cr	Homes booked in the Gurugram launch of late June/early July 2026 — **more than the company's entire FY26 sales of ₹5,447 cr, in one project.**
FY26 pre-sales (full year)	₹5,447 cr	Up just 3% on FY25's ₹5,266 cr, on 698 homes sold — 24% fewer homes. The core Mumbai business went sideways.
Collections (Q1 FY27)	₹921 cr	Actual cash received from customers in the quarter. Cash, not accounting revenue.
Net debt-to-equity (Jun 26)	0.04	Borrowings minus cash, divided by shareholders' money. Effectively **debt-free**. Gross debt-to-equity 0.15; borrowings fell from ₹3,300 cr to ₹2,825 cr over FY26.
ROCE / ROE (FY26)	17.3% / 14.6%	Return on the capital employed, and on shareholders' money. Decent, held back by the large amount of land sitting idle before launch.

2 Concall coverage

Quarter	Call date	Transcript read?
Q1 FY24	1 Aug 2023	Yes
Q2 FY24	Nov 2023	Yes
Q4 FY24	15 May 2024	Yes
Q1 FY25	22 Jul 2024	Yes
Q2 FY25	21 Oct 2024	Yes
Q3 FY25	21 Jan 2025	Yes

Q4 FY25	29 Apr 2025	Yes
Q1 FY26	22 Jul 2025	Yes
Q2 FY26	Oct 2025	Yes
Q3 FY26	20 Jan 2026	Yes
Q4 FY26	11 May 2026	Yes
Q1 FY27	**20 Jul 2026**	**Yes — latest call, read in full ★**

Twelve distinct transcripts covering three years, Aug 2023 to Jul 2026. Screener listed 39 calls going back to 2016 and served 13 files, of which two were the same 22 Jul 2024 call filed twice. Everything Screener had from Aug 2023 onward was downloaded and read; the older 2016–May 2023 calls have no transcript on Screener. The one gap inside the window is the Q3 FY24 (Jan 2024) call, which Screener does not list at all. Q1 FY27 figures were cross-checked against the company's investor presentation and press coverage.

★ Latest concall highlights — Q1 FY27 (call held 20 July 2026)

- **The Gurugram launch went off like a rocket, and it is the whole story.** Three Sixty North, on 14.8 acres on Golf Course Extension Road, took **₹8,109 cr of bookings** — 23.1 lakh sq ft of saleable area. Oberoi paid ₹597 cr for that land in 2023. Vikas Oberoi: "we ourselves were overwhelmed with the kind of response... we simply decided that we will honor each and every customer."
- **The project has already paid for itself.** "The value that we've sold is good enough to take care of our entire construction, in fact, much more than that. So this project as far as financial closure goes is complete." Phase 2 — roughly the other half of the 2.6 million sq ft carpet area, total project value around ₹14,000 cr — is held back deliberately for next year, price undecided.
- **Meanwhile the Mumbai base was weak.** Q1 FY27 pre-sales *excluding* Gurugram were ₹1,050 cr, down 36% year-on-year, on 161 homes. Residential revenue recognised fell to about ₹880 cr from ₹1,300–1,400 cr in each of the prior three quarters — which the finance director explained as timing of possession handovers, not lost demand.
- **A court order hangs over the trigger.** Asked directly about "the litigation which has now emerged," Vikas Oberoi declined to discuss it. On 7 July 2026 the Punjab and Haryana High Court restrained further allotments at the project pending a Haryana town-planning decision on a rival developer's complaint. Management's position on the call: all allotments for the ₹8,109 cr already booked are "all done," and the bookings are "completely distanced from the court ruling."
- **Rental portfolio is close to full.** Commerz I, II, III and Oberoi Mall at near 100% occupancy; Sky City Mall at 82% after one year, up from 50%, targeted at near 100% within the year. FY27 launch pipeline named on the call: Aurelius (Pedder Road), new towers at Pokhran Road and Kolshet in Thane, Alibaug, Adarsh Nagar in Worli "hoping for a Q3 launch," and possibly Mulund.

Business mix & capacity. Development ~76% / annuity ~24% of Q1 FY27 consolidated revenue: investment properties (offices, malls, hotel) brought in **₹317.3 cr at a 93% operating margin**, against roughly ₹984 cr from selling homes. That rental stream annualises to about **₹1,270 cr** — small next to development, but it is recurring, almost pure profit, and it is what stops a lumpy developer from having zero-revenue quarters. Within it: Commerz III ₹154.7 cr (98% occupied), Sky City Mall ₹57.1 cr (82%, up from 50% a year ago), Oberoi Mall ₹53.5 cr (99%), Commerz II ₹38.1 cr (100%), Commerz I ₹13.9 cr (96%). Occupancy by type — commercial 98%, retail 87%, hotel 75%.

Pipeline. Unsold finished-and-under-construction inventory stands at **31.45 lakh sq ft**, and cumulative bookings across the whole portfolio to date are ₹28,296 cr. On top of that, FY26 added close to **4 million sq ft of new development potential** — 11 acres in Bandra East, about 2 million sq ft at Aram Nagar in Versova, plus society redevelopment agreements in South Bombay, Pedder Road, Malabar Hill and Nepean Sea Road, and the Horizon Hotel acquisition through insolvency proceedings. Three Sixty North Phase 2 alone is roughly 1.2 million sq ft of carpet area still to be launched. *The company does not publish a single consolidated land-bank number, so no total is stated here.*

★ 3. Earning-trigger thesis

For three years the management line has been consistent: buy land cheaply and patiently in and around Mumbai, hold it until every approval is in hand, launch into demand rather than into price, keep the balance sheet near debt-free, and let the rental portfolio compound quietly underneath. In Q1 FY27 that machine produced its single biggest result. **Three Sixty North turned ₹597 cr of land bought in 2023 into ₹8,109 cr of bookings — 1.5 times the entire FY26 sales of the company — in one launch, and the project is already cash-positive before a floor is built.** That is not a windfall from a commodity price or a one-off gain; it is the intended output of a strategy stated repeatedly on these calls. It also proves the thing bulls could not previously verify: that the Oberoi brand travels outside Mumbai. The honest counterweight is that the Mumbai base it is bolted onto has stalled — FY26 pre-sales grew 3%, and Q1 FY27 pre-sales excluding Gurugram fell 36%.

Trigger	What management said	Evidence so far	Horizon	Strength
NCR entry — Three Sixty North	Bought the Gurugram land in 2023; said for two years it would "come"; in May 2026 "let pricing be a little bit of a suspense"; now "Gurugram to become a bigger market than Mumbai."	**Delivered, spectacularly.** ₹8,109 cr booked, ~₹60,000 per sq ft of carpet area, construction fully funded from bookings. Phase 2 (~1.2 mn sq ft) held for FY28.	Now → FY28	**Strong** Banked cash, not a forecast.
Deep FY27 launch pipeline	Named on the call: Aurelius (Pedder Road), Pokhran and Kolshet towers, Alibaug, Adarsh Nagar Q3, possibly Mulund. "All of them are in FY27."	Unproven. Adarsh Nagar has been promised as "this year" since FY25 and is still awaiting approvals. The rest are new.	FY27	**Moderate** Real projects, chronically late.
Annuity / rental compounding	May 2024: rentals would cross ₹1,000 cr a year "within this financial year easily" once Commerz III and Sky City Mall opened.	**Delivered.** ₹317 cr a quarter, ~₹1,270 cr annualised, 93% margin. Commerz III filled to 98%; Sky City 50%→82% in a year.	Ongoing	**Strong** Recurring and near-fully let.
Business development refill	"Business development for us is an everyday job." ~4 mn sq ft added in FY26 across Bandra East, Versova, and South Mumbai redevelopments.	Signed, but almost none of it launched or monetised yet. Redevelopment deals carry the longest approval tails of any format.	3–7 yrs	**Moderate** Genuine, but very slow to cash.
Core MMR pre-sales growth	"We look at our sales in the entire year and not literally per quarter." No numeric guidance ever given.	**Stalled.** FY25 ₹5,266 cr → FY26 ₹5,447 cr (+3%), with 24% fewer homes sold. Q1 FY27 ex-NCR down 36%.	Ongoing	**Weak** Two flat years in the home market.
Balance-sheet strength	Repeated intent to keep gearing in the 0–0.25 range and fund annuity build-out, not land, with debt.	**Delivered.** Net debt-to-equity 0.04, gross 0.15; borrowings ₹3,300 cr → ₹2,825 cr in FY26.	Ongoing	**Strong** Never breached in three years.
Litigation overhang (risk, not a trigger)	"I don't want to talk about the litigation because it's prejudice." Existing allotments "all done."	P&H High Court, 7 Jul 2026, bars fresh allotments pending Haryana DTCP ruling on a rival's licence-cancellation complaint. No stay on construction.	Unknown	**Live risk** Sits on the exact asset that is the trigger.

4 Management consistency scorecard

Period	What was promised	What actually happened	Verdict
Q1 FY25 (Jul 24)	Gurugram and Adarsh Nagar "slated for probably end of this year or early	Gurugram launched **June 2026**, roughly five quarters late. Adarsh Nagar still not launched as of Jul 2026.	**Missed**

	next year sort of launch" — i.e. around Mar 2025.		
Q2 FY25 (Oct 24)	NCR launch "maybe the first quarter, next financial year or second quarter next financial year" — Q1/Q2 FY26.	Slipped again. By Jul 2025 it had become "Q4, we will do NCR"; by Jan 2026, "we are desperately trying to get NCR within this quarter."	**Missed**
Q4 FY24 (May 24)	Rental income to cross the ₹1,000 cr-a-year mark "within this financial year easily."	Achieved. Annuity revenue now ₹317 cr a quarter (~₹1,270 cr annualised) at a 93% margin.	**Delivered**
Q2 FY25 (Oct 24)	Commerz III office tower to be "100%... or close to 100%" leased within FY25.	Reached 85% by Jul 2025, 90% by Jan 2026, 98% by May 2026. Got there — about a year late.	**Partly**
Q1 FY25 (Jul 24)	Sky City Mall "80%–90% leased within this year itself" (FY25).	Was 50% in mid-FY26, 56% in Jan 2026, 72% in May 2026, 82% now. Roughly two years behind the original promise, though the trajectory is right.	**Slipping**
Q4 FY25 (Apr 25)	Highest-ever booking value of ₹5,266 cr in FY25; Gurugram and Adarsh Nagar "all lined up in the second half of this year."	FY26 bookings ₹5,447 cr — up only 3%, on 24% fewer homes. Neither project launched in FY26.	**Missed**
Q4 FY26 (May 26)	Three Sixty North, Oceanic (Carter Road), Fairview (Malabar Hill) and Forestville Tower D — "all four launches in this first quarter itself." Adarsh Nagar IOD approval "within a week or 10 days."	Three Sixty North launched 29 Jun 2026, just inside the quarter. Adarsh Nagar now pushed to Q3 FY27.	**Partly**
Q1 FY27 (Jul 26)	"We've cracked the code as far as volume and quality is concerned." Margins "will continue going forward." Phase 2 of Three Sixty North next year. Adarsh Nagar in Q3.	Too early to judge. 18 towers of 60–65 floors are under construction simultaneously, which is at least consistent with the volume claim.	**Too early**

Narrative drift. On *strategy*, there is essentially none: buy land patiently, wait for full approvals before launching, price proactively upward, keep gearing near zero, build the rental book. That story has not changed a word in three years, and the numbers back it — gearing has never breached the stated band, margins have held above 50%, and the annuity portfolio hit its promised size. On *timing*, the drift is chronic and measurable. Gurugram slipped from "end of FY25" to June 2026 across at least five separate calls. Adarsh Nagar has been "this year" since FY25 and is now a Q3 FY27 hope. Sky City Mall's leasing was promised at 80–90% for FY25 and is at 82% two years later. To his credit, Vikas Oberoi named this habit himself back in Aug 2023 — "we normally end up being ambitious and say that we'll launch in the next quarter and then sometimes it slips to the quarter after that" — and repeated it in Jul 2026: "I always keep a cushion of a quarter here and there." The self-awareness is honest, but a quarter's cushion does not cover a five-quarter slip. There is one genuine strategic widening: a company that described itself as an MMR pure-play now says it wants Gurugram to be a bigger market than Mumbai. That is a real change of scope — but it was announced in advance, funded conservatively, and then delivered, which is the good version of drift. Note also that management refuses to give numeric sales guidance at all ("I've never done that"), so they cannot be scored on forecasts they never made — which cuts both ways.

5 Bottom line — two verdicts

Durable earning trigger? → YES

Three Sixty North is a real, banked, quantified trigger, not a hope. ₹597 cr of land bought in 2023 produced **₹8,109 cr of bookings** — more than the company's entire FY26 sales — with construction fully funded from customer money before a single floor is poured, and roughly ₹6,000 cr of Phase 2 inventory deliberately held back for FY28. Two things make it durable rather than a one-off. First, it validates a repeatable model: the brand commands luxury pricing in a market Oberoi had never sold in, which turns an announced FY26 land pipeline of about 4 million sq ft into something plausibly monetisable rather than speculative. Second, underneath it sits an annuity portfolio now earning ₹317 cr a quarter at a 93% margin, near-fully let, with Sky City Mall still ramping from 82% — a growing floor of recurring profit that few developers have. Two things you must hold against it. The core Mumbai business has gone sideways for two years: FY26 pre-sales up 3% on 24% fewer homes, and Q1 FY27 pre-sales excluding Gurugram down 36%. And the Punjab and Haryana High Court's 7 July order sits directly on the asset that *is* the trigger; management says existing allotments are complete and construction is unstayed, but that is an unresolved legal risk on the best thing the company owns. The trigger clears the bar. It is not risk-free.

Management consistent? → MAYBE

Split cleanly by category: **reliable on what, unreliable on when.** Everything they said they would build, they built — the rental book crossed ₹1,000 cr as promised, Commerz III filled to 98%, gearing never left the 0–0.25 band and is now 0.04 net, margins have stayed above 50% for years, and the Gurugram project they talked about for three years landed with the biggest launch in the company's history. The strategy has not drifted, and they conspicuously refuse to give sales guidance rather than give soft numbers they would miss. But their launch timelines are not usable as information. Gurugram slipped roughly five quarters across five consecutive calls; Adarsh Nagar has been "this year" since FY25 and is now a Q3 FY27 hope, two years after the redevelopment agreement was signed; Sky City Mall's leasing was guided to 80–90% for FY25 and reached 82% only in mid-FY27. Vikas Oberoi flags the habit himself, which is more candour than most, but naming a recurring miss is not the same as fixing it, and an investor modelling cash flows off these calls would have been wrong by a year or more, repeatedly. The final mark against a higher grade is the refusal to engage at all with the Gurugram litigation on the call — legally understandable, but it leaves shareholders reading news reports for the risk sitting on the company's most valuable project. Consistent in direction, unreliable in schedule.

Sources: Twelve Oberoi Realty Ltd earnings-call transcripts, Q1 FY24 (1 Aug 2023) through Q1 FY27 (20 Jul 2026), sourced from Screener.in; Screener.in consolidated and standalone financial history (profit & loss, balance sheet, cash flow, ratios, quarterly results); Oberoi Realty Q1 FY27 investor presentation figures as reported by Investing.com; Q1 FY27 and FY26 result coverage from Business Standard, Free Press Journal, EquityBulls and Whalesbook; Three Sixty North booking disclosure of 6 Jul 2026; Punjab and Haryana High Court order of 7 Jul 2026 as reported by LiveLaw and Business Today.

A note on the numbers: figures quoted here are *consolidated* unless stated — Q1 FY27 revenue ₹1,301 cr and profit ₹544 cr, FY26 revenue ₹6,009 cr and profit ₹2,507 cr. Screener's default quarterly and annual tables are *standalone* and show ₹1,038 cr / ₹508 cr for the June 2026 quarter and ₹4,916 cr / ₹1,968 cr for FY26. Both are correct on their own basis; the difference is the subsidiaries and joint ventures that hold several of the projects. Pre-sales (booking value) is not an accounting-revenue figure — it is the rupee value of homes booked, which flows into the profit and loss account over the following years as construction progresses.
