Ashiana Housing Ltd

Concall Tracker · Q2 2027 · first report, built without the Q2 FY27 transcript

1. Snapshot

Housing developer that builds and sells homes in Gurugram, Bhiwadi, Jaipur, Chennai, Pune, Jamshedpur and nearby towns. It is best known for senior-living communities for buyers aged 55 and over, and also builds kid-centric and premium homes. It books sales when buyers sign up but only records revenue when it hands the finished home over, so reported quarterly profit jumps around with handovers.

Number	Value	What it means
Market cap	Rs 3,578 cr	What the market values the whole company at (Screener, Nov 2026).
Bookings (pre-sales), FY26	Rs 2,421 cr	Value of homes sold during the year, a record and above the Rs 2,000 cr target for that year.
Bookings, H1 FY27 (Apr-Sep 2026)	Rs 1,192 cr	Up from Rs 734 cr in the same half last year, mostly from the Ashiana OMA launch in Jaipur.
Revenue, Q2 FY27 (consolidated)	Rs 576 cr	Up from Rs 166 cr a year ago because two Gurugram projects were handed over in the quarter.
Net profit, Q2 FY27 (consolidated)	Rs 51 cr	Up from Rs 28 cr a year ago, again because more homes were handed over.
Net profit, FY26 (standalone)	Rs 124 cr	Up from Rs 18 cr in FY25, when few homes were handed over.
Borrowings, Sep 2026	Rs 329 cr	Mostly NCDs (bonds); the company says its balance sheet is net cash.
Promoter holding	61.1%	Unchanged for three years.

2. Concall coverage

Quarter	Date	Transcript read?
Q1 FY25	Aug 2024	Yes (skimmed for guidance)
Q2 FY25	Nov 2024	Yes (skimmed for guidance)
Q3 FY25	Feb 2025	Yes (skimmed for guidance)
Q4 FY25	2 Jun 2025	Yes (skimmed for guidance)
Q1 FY26	13 Aug 2025	Yes (skimmed for guidance)
Q2 FY26	Nov 2025	Yes (skimmed for guidance)
Q3 FY26	Feb 2026	Yes (skimmed for guidance)
Q4 FY26	Jun 2026	Yes (skimmed for guidance)
Q1 FY27	12 Aug 2026	Yes, read in full
Q2 FY27	5 Nov 2026 (call held)	No: transcript not filed yet

Nine transcripts across about two and a quarter years. The Q2 FY27 call was held on 5 Nov 2026 and its audio was filed, but the written transcript was not out on Screener or BSE when this report was built (checked 11 Nov 2026). The Q2 FY27 section below uses the investor presentation (5 Nov 2026) and the board-approved results (4 Nov 2026) instead, plus what management said on the August 2026 call.

Latest update highlights: Q2 FY27 (results and investor presentation, Nov 2026; no transcript yet)

- Bookings were Rs 834 cr in the quarter against Rs 303 cr a year ago, mainly from converting 222 units at the new Ashiana OMA project in Jaipur. The half came to Rs 1,192 cr, above the Rs 1,050-1,100 cr that management said in August it would exit September with.

- Revenue rose to Rs 576 cr and net profit to Rs 51 cr as handovers started at Ashiana Amarah Phase 1 and Ashiana Anmol Phase 3 in Gurugram, both after occupancy certificates came in mid-July.
- Collections were Rs 487 cr in the quarter, up from Rs 407 cr a year ago: cash coming in from buyers keeps growing.
- Launched Ashiana OMA (Phases 1 and 2) in Jaipur and Ashiana Vatsalya Phase 3 in Chennai. Bought 28.55 acres at Vadgaon near Pune, its largest-ever land deal, for a senior-living project with an estimated sales value of about Rs 1,800 cr, funded partly by new NCDs.
- Started repaying the ICICI Prudential NCDs: a quarter of the issue was redeemed, the rest is due over the next three years. The presentation keeps the FY27 senior-living booking target of more than Rs 700 cr and the FY30 aim of Rs 1,500 cr a year.

Business mix & capacity

Domestic vs export: All sales are in India: Ashiana sells homes, it does not export. Ongoing projects by value: about 35% senior living, 22% kid-centric homes, 43% premium and elite homes (H1 FY27 presentation).

Capacity use: Not a factory business. The equivalent of capacity is land and launch pipeline: management says the entire land bank held for future development is senior living, and ongoing projects by saleable area are spread across Gurugram, Jaipur, Pune, Bhiwadi, Chennai and Jamshedpur.

3. Earning Trigger thesis

The earnings driver is senior living. Management is moving more and more capital into it because it sees ageing demographics and little organised competition, and says these projects earn better margins than the rest of the company. Senior-living bookings have grown from about Rs 100 cr five years ago to Rs 570 cr in FY26, with a target of more than Rs 700 cr in FY27 and Rs 1,500 cr a year by FY30. Near term, profit is driven by handovers of homes already sold: management guided about Rs 2,000 cr of revenue for FY27 and a reported return on equity above 20%. The catch: management itself said total bookings may dip for a year or two because regular-housing inventory in Gurugram, Jaipur and Bhiwadi is running low.

Trigger	What management said	Evidence so far	Time horizon	Strength
Senior-living scale-up	Grow senior-living bookings faster than the rest; Rs 1,500 cr a year by FY30; aim for about Rs 10,000 cr of senior-living project value (Aug 2026)	Bookings went from about Rs 100 cr to Rs 570 cr in five years; new land at Vadgaon (Pune) and a pending Bengaluru deal on Kanakapura Road	FY27 to FY30	Strong: steady track record and land already bought
Handovers of sold homes	About Rs 2,000 cr revenue in FY27; reported ROE above 20% (Jun and Aug 2026)	H1 FY27 revenue Rs 683 cr; big Gurugram handovers began in Q2	FY27	Moderate: the year is back-ended and depends on occupancy certificates arriving on time
Better margins on later phases	Later phases of Amarah carry much better margins than Phase 1; target about 30% gross margin at project level (Aug 2026)	Amarah Phase 1 and Anmol Phase 3, handed over now, are lower-margin, in the mid-20s gross margin	FY28 onward	Unproven: the better phases are not handed over yet

3b. Trigger check

Trigger type	Yes/ No	What was said (date)
Debt cut	Yes	Started redeeming the ICICI Prudential NCDs: a quarter repaid, the rest over three years (Aug 2026 call; Q2 FY27 presentation). New NCDs were also raised for the Vadgaon land.
New business	No	Senior living is not new; it is being scaled up. Kid-centric homes are still being refined before they go to more cities (Aug 2026).
Margin up	No	

Trigger type	Yes/ No	What was said (date)
		Management expects better margins from later phases, but said the projects handed over now are lower-margin (Aug 2026).
New management	No	No change mentioned.
New capacity	Yes	New launches: Ashiana OMA in Jaipur and Vatsalya Phase 3 in Chennai in Q2 FY27; Aaroham Phase 3 in Gurugram planned for Q3 or Q4 FY27 (Aug 2026).
Big orders	Yes	Record bookings of Rs 1,192 cr in H1 FY27; FY27 bookings target of Rs 2,200 cr reaffirmed on track (Aug 2026).
Turnaround	No	Not a turnaround; FY25's low profit was due to few handovers.
Promoter buying	No	Promoter holding unchanged at 61.1%.

The single concrete driver: Senior-living projects are getting a larger share of land, launches and bookings, while FY27 profit comes from handing over homes already sold in Gurugram, Jaipur and elsewhere.

3c. Margin bridge

Q2 FY27 consolidated net profit was about 9% of revenue against about 17% a year ago. Management said on the August call that the projects being handed over now, Amarah Phase 1 and Anmol Phase 3, are lower-margin phases (mid-20s gross margin) and that Amarah from Phase 3 onward is substantially better. So the lower margin comes from which phases are being handed over, not a lasting change (one-off).

4. Management consistency scorecard

Period	What was promised	What actually happened	Verdict
FY25 (Aug 2024 to Feb 2025)	Rs 2,000 cr of bookings in FY25	Rs 1,937 cr booked	Partly (just short)
Feb 2025	Ashiana Aaroham launch around Q1 FY26	Regulatory clearances took longer; it launched later in FY26 and sold about Rs 767 cr on launch	Partly (late, but sold well)
Aug 2025	Senior-living bookings of Rs 500 cr in FY26	Rs 570 cr	Delivered
Nov 2025	About Rs 2,000 cr of bookings in FY26	Rs 2,421 cr, a record	Delivered
Aug 2026	Exit H1 FY27 at Rs 1,050-1,100 cr of bookings	Rs 1,192 cr	Delivered
Jun and Aug 2026	Rs 2,200 cr bookings and about Rs 2,000 cr revenue in FY27; ROE above 20%	H1 bookings Rs 1,192 cr; H1 revenue Rs 683 cr, the rest depends on H2 handovers	Too-early
Aug 2025 to Aug 2026	Close the Bengaluru (Kanakapura Road) senior-living deal	Still waiting on conditions being resolved; team deployed	Too-early (dragging)

Narrative drift: The story has been steady for two years: move capital to senior living, focus on return on equity rather than chasing bookings growth, and hand over on time. Management mostly hits its bookings targets. One wobble: on the August 2026 call an analyst pointed out that the company had earlier talked about ROE above 20% and was now calling 15% the long-term floor; management said 15% is the floor and still expects above 20% this year. The admission that bookings may dip for a year or two is candid rather than a change of story.

5. Bottom line

Durable earning trigger? → YES

Senior living is a concrete driver with a five-year record of growing bookings, more land bought for it, and a stated target for FY27 and FY30. FY27 profit is also backed by homes already sold and due for handover. The risk is timing: revenue is lumpy, depends on occupancy certificates, and regular-housing bookings may soften.

Management consistent? → YES

Management met or beat most bookings targets over the last two years, including the H1 FY27 exit number it gave in August. Launch timings sometimes slip on approvals (Aaroham, Chennai, Bengaluru), and the ROE messaging moved between 15% and 20%, but the core plan has not changed.

6. Checkpoints for next quarter

- H2 FY27 handovers keep the full-year revenue near the Rs 2,000 cr guide
- Aaroham Phase 3 launches in Gurugram in Q3 or Q4 FY27
- Bengaluru senior-living deal is signed and FY27 senior-living bookings pass Rs 700 cr
