Anant Raj Ltd

Concall tracker report · Q2 2027 (Sep 2026 quarter) · prepared 11 Nov 2026

1. Snapshot

A Delhi-NCR real estate developer (luxury and group housing in Gurugram's Sector 63A, the Birla Navya joint venture, affordable housing in Tirupati) that sits on about 320 acres of debt-free land, and has built a data centre and cloud business (Ashok Cloud) on its own land at Manesar and Panchkula. The board has approved demerging the data centre and cloud business into a separately listed Ashok Cloud.

- Market cap about Rs 16,508 cr at about 52 times profit: priced for the data centre story.
- FY26 sales Rs 1,492 cr, up 21%; net profit Rs 298 cr.
- Operating margin rose from 13% (FY24) to 21% (FY26) and 23% trailing.
- Sep 2026 quarter (investor presentation): revenue Rs 662 cr, up only 4.9%; EBITDA up 21% at a 31.7% margin; profit Rs 156 cr, up 13%.
- Data centre, infrastructure and allied revenue Rs 115 cr in Q2: about a sixth of revenue.
- Return on capital about 8%: low, as land and data centres tie up capital. Credit rating upgraded to A-Stable by Infomerics.

2. Concall coverage

Anant Raj has published only five earnings-call transcripts (latest Nov 2025); later calls appear on Screener as presentations only. This report uses those transcripts plus NSE/BSE filings: the Q2 FY27 investor presentation (28 Oct 2026), the demerger press release (21 Jul 2026) and the Haryana MoU release (7 Oct 2026).

Quarter / source	Date	Read?
Q4 FY23	May 2023	Yes (scanned)
Q2 FY24	Oct 2023	Yes (scanned)
Q4 FY24	Apr 2024	Yes (scanned)
Q2 FY25	30 Oct 2024	Yes
Q2 FY26	Nov 2025	Yes, in full
Q2 FY27	28 Oct 2026	Investor presentation read; no transcript

Five transcripts over two and a half years plus the latest presentation; the gaps between calls limit the consistency read.

Latest update highlights - Q2 FY27 (investor presentation, 28 Oct 2026)

- Revenue Rs 662 cr, up 4.9%; EBITDA Rs 215 cr, up 21%, margin 31.7%; profit Rs 156 cr, up 13%.
- Data centres: 28 MW running at two campuses; target 63 MW by end FY27 and 357 MW by FY32; AI-enabled services due to start this financial year.
- Real estate: RERA approval for The Estate One (352 units, 5.09 acres, Sector 63A), launch soon; another 6.38-acre licence expected in Q3; Phase IV of Anant Raj Estate started; Phase V approvals expected in Q4 FY27.
- Demerger of data centres into Ashok Cloud (one share for each Anant Raj share) awaiting exchange and SEBI clearances.
- Singapore subsidiary and Orange Business Services signed an MoU with the Haryana government to bring overseas customers to its data centres.

Business mix & capacity

- Domestic vs export: domestic business; the Singapore arm and Haryana MoU aim to attract overseas data-centre clients.
- Capacity: data centre IT load 28 MW now, 63 MW targeted by end FY27; about 320 acres of land in hand.

3. Earning trigger thesis

Two engines: Gurugram luxury housing on land it already owns (new launches lined up through FY27), and data centres built on its own land with a long capacity runway. Margins have climbed as data centres grow. The demerger will split them. Revenue growth slowed sharply this quarter, and the data centre build-out has run behind its own timelines before.

Trigger	What management said	Evidence so far	Time horizon	Strength
Data centre build-out	63 MW by Dec 2026 (Nov 2025 call); now 'by end FY27'	28 MW running; data centre revenue Rs 115 cr in Q2	FY27-FY32	Moderate: real but slipping
Gurugram housing launches	Estate One, a 6.38-acre project, Phase IV and V	RERA for Estate One received; others awaiting approvals	FY27-FY28	Moderate
Demerger into Ashok Cloud	Unlock value with two listed companies	Board approved; awaiting NOCs	FY27-FY28	Unproven

3b. Trigger check

Trigger type	Yes/No	What was said (date)
Debt cut	No	-
New business	Yes	AI-enabled cloud services due this year; overseas clients via Singapore arm (Oct 2026)
Margin up	Yes	EBITDA margin up about 4 points to 31.7% (Oct 2026 presentation)
New management	No	-
New capacity	Yes	Data centre IT load to reach 63 MW by end FY27 (Oct 2026)
Big orders	No	-
Turnaround	No	-
Promoter buying	No	-

Single concrete driver: Data centre capacity on its own land growing toward 63 MW this year, plus new Gurugram housing launches on land already owned.

3c. Margin bridge

EBITDA margin rose to 31.7% from 27.8% a year ago as higher-margin data centre and cloud revenue grew within the mix (EBITDA includes other income). (lasting)

4. Management consistency scorecard

Period	What was promised	What actually happened	Verdict
Apr 2024	21 MW operational by Dec 2024	6 MW by Oct 2024; target moved to 28 MW by end FY25	Partly

Oct 2024	28 MW by end FY25	Delivered in Q2 FY26, about two quarters late	Partly
Nov 2025	63 MW operational by Dec 2026	Now targeted 'by end of FY 2026-27'	Partly
Nov 2025	Cloud revenue on track for FY26/FY27 targets	Data centre and allied revenue Rs 205 cr in H1 FY27	Delivered
2025	Licences and launches in Sector 63A	RERA for Estate One received; next licence expected Q3	Partly

The direction is steady: build data centres on its own land, keep launching Gurugram housing. But every data centre milestone has landed one or two quarters late. Fewer published transcripts also means less to hold management to.

5. Bottom line

Durable earning trigger? → MAYBE

Data centres are real, in the numbers and lifting margins, and the land bank is paid for. But revenue barely grew this quarter, capacity targets keep slipping, and the demerger and AI services are still ahead.

Management consistent? → MAYBE

Delivers what it promises, just later than it says. The data centre steps have each slipped by a quarter or two.

6. Checkpoints for next quarter

- Data centre IT load reaches 63 MW by March
- The Estate One project launches
- Exchanges and SEBI clear the Ashok Cloud demerger
