Global Health Ltd (MEDANTA)

Concall tracker, Q2 2027 (Jul-Sep 2026) · Runs the Medanta chain of large multi-specialty hospitals in Gurugram, Lucknow, Patna, Indore, Ranchi and Noida, founded by heart surgeon Dr Naresh Trehan.

1. Snapshot

Number	Value	Plain read
Market cap	₹38,419 cr	A large hospital company by stock-market value.
Q2 revenue (consolidated)	₹1,469 cr, up 34%	Its fastest growth in a while, as newer hospitals fill up.
Q2 operating margin	25.2% (21% a year ago)	It keeps a quarter of each rupee before interest and depreciation, up as Noida stopped losing money.
Q2 net profit	₹219 cr, up 38%	Profit growing a bit faster than sales.
P/E	69.9	Investors pay a premium, typical for listed hospital chains.
Net cash	₹782 cr	More cash than debt, even while building new hospitals.

2. Concall coverage

Quarter	Date	Transcript read?
Q4 FY23 to Q4 FY25	May 2023 to May 2025	Skimmed for promises (8 calls)
Q2 FY26	Nov 2025	Yes
Q3 FY26	Feb 2026	Yes
Q4 FY26	May 2026	Yes
Q1 FY27	Aug 2026	Yes
Q2 FY27	4 Nov 2026	Yes, in full ★

Sixteen calls since listing; the last three years were read for promises and the latest call in full.

Latest concall highlights — Q2 FY27 (4 Nov 2026)

- Revenue up 34% to ₹1,469 cr, operating profit up 60%, margin 25.2%. Inpatients up 30%, outpatients up 38%.
- The 550-bed Noida hospital broke even on operating profit within a year of its November 2025 launch.
- Newer hospitals (Lucknow, Patna, Noida) grew revenue 63%; the older Gurugram cluster grew 18% with occupancy up to 66%.
- Bought land in Ghaziabad for a 500-bed hospital (about ₹1,000 cr capex). Six greenfield hospitals in the pipeline, adding about 3,450 beds and nearly doubling capacity over a few years, with over ₹6,000 cr of capex.
- New operating theatres and cath labs coming at Gurugram, Patna and Lucknow in the next couple of quarters.

Business mix & capacity

- Domestic vs international: international patients were ₹99 cr of revenue (about 7%), up 30%.
- Capacity: 3,811 total beds, 3,115 census beds; network occupancy 67% vs 64% a year ago.

3. Earning trigger thesis

Medanta's model is to build big tertiary hospitals in under-served cities and fill them with top doctors. Lucknow and Patna proved it, and Noida now did the same within a year. The pipeline of six more hospitals could almost double beds, and occupancy is still only two-thirds, so growth has room on both fronts.

Trigger	What management said	Evidence so far	Time horizon	Strength
Noida ramp-up	Breakeven quickly like Lucknow and Patna	Breakeven in Q2 FY27, about a year in	Now	Strong
Six new hospitals	About 3,450 beds, nearly double	Land bought (Guwahati, Ghaziabad), construction started in some	FY28-31	Moderate: years away
Occupancy of existing beds	Grow through volumes	67% from 64%	Ongoing	Strong
Added theatres and cath labs	Coming next couple of quarters	Being installed	FY27	Moderate

3b. Trigger check

Trigger type	Yes/No	What was said (date)
Debt cut	No	Already net cash.
New business	No	Pharmacy grew 53%, but it's an existing line.
Margin up	Yes	Margin up to 25.2% from 21% as Noida broke even (Nov 2026).
New management	No	No change mentioned.
New capacity	Yes	74 beds added; Ghaziabad 500-bed hospital approved; six-hospital pipeline (Nov 2026).
Big orders	No	Not applicable.
Turnaround	Yes	Noida swung from a loss to breakeven (Nov 2026).
Promoter buying	No	Not discussed.

The single concrete driver: The new Noida hospital broke even within a year and newer hospitals are growing fast, with six more in the pipeline to nearly double beds.

3c. Margin bridge

Margin rose from 21% to 25.2% because Noida went from a ₹20 cr quarterly operating loss to a small profit and older hospitals ran fuller. Higher depreciation and interest from new hospitals sit below that line (lasting).

4. Management consistency scorecard

Period	What was promised	What actually happened	Verdict
Nov 2024	Noida opens in Q1 FY26	Opened September 2025 (Q2 FY26)	Partly (one quarter late)
May 2024	Noida breaks even quickly like Lucknow and Patna	Breakeven within a year	Delivered
May 2025	Add about 1,000 beds in two years	623 beds added in FY26, 74 more in Q2 FY27	Delivered (on track)
Oct 2025	Start Guwahati construction	Land possession, ground-breaking held	Delivered

A very steady story for three years: build big hospitals in new cities, ramp them fast, keep cash on the balance sheet. Timelines slip by a quarter at most.

5. Bottom line

Durable earning trigger? → YES

Noida's turn to profit is already lifting margins, and occupancy plus the hospital pipeline give years of growth.

Management consistent? → YES

Promises on hospital openings and ramp-ups have been kept, with only small delays.

6. Checkpoints for next quarter

- Noida stays profitable and keeps filling beds
- New theatres and cath labs open at Gurugram, Patna and Lucknow
- Group margin holds above last year's level
