Concall Tracker · Q2 2027 · first report

1. Snapshot

Mumbai home builder selling flats from uber-luxury towers at BKC and Nepean Sea Road down to affordable homes at Naigaon and Kalyan. It earns by pre-selling flats and booking the profit when a project nears completion, plus a small rental income from offices.

Number	Value	What it means
Market cap	Rs 4,448 cr	What the market values the whole company at.
Q2 FY27 presales	Rs 824 cr	Value of flats sold in the quarter; Rs 1,611 cr for the half, up about a fifth on last year.
FY26 presales	Rs 3,157 cr	Full-year bookings, up 25%, matching the guidance it gave.
Q2 FY27 collections	Rs 371 cr	Cash actually received from buyers; lags sales because new projects pay in stages.
Net debt to equity	0.09x	Borrowings minus cash are tiny against shareholders' money, so the balance sheet is clean.
Stock P/E	63x	Reported profit is lumpy for builders, so this looks high; presales tell more.

Nine calls across two years. Earlier calls back to 2023 are on Screener but were not needed for the trigger thread.

Latest concall highlights: Q2 FY27 (call held 27 Oct 2026)

- Presales Rs 824 cr in the quarter and Rs 1,611 cr in the half, up 19% with no big launch. Management repeated its 25% full-year growth guide.
- Bought 4.5 more acres at Borivali West, making it an 11.5-acre project worth about Rs 8,000 cr in sales. Total sale value of land in hand is now Rs 46,900 cr.
- Dubai project moved out of the near-term pipeline: it has approvals and is launch-ready, but the Middle East situation means no launch in the next one or two quarters.
- H2 launch pipeline about Rs 7,000 cr: Belvedere Park at Mira Road, an Andheri redevelopment (each about Rs 1,200-1,500 cr), Altavia tower 2 at ODC Goregaon, a Borivali phase and new towers at Vasai, Naigaon and Kalyan.
- Nepean Sea Road: demolition of the old buildings is under way; RERA launch promised before March 2027.
- Net debt only 0.09x after spending about Rs 400 cr on land in the half. Rental income running at about Rs 86 cr a year.

Business mix & capacity

Domestic vs export: All sales are in the Mumbai region; Dubai is the only overseas project and is on hold. Presales mix this quarter: uber luxury about a quarter, premium luxury about half, aspirational about a quarter.

Capacity use: Not a factory business. The measure is land in hand: Rs 46,900 cr of sale value, of which Rs 26,000 cr is launched or awaiting launch, several years of pipeline.

3. Earning Trigger thesis

The driver is a growing launch pipeline across Mumbai's western suburbs, with presales compounding at about 25% a year and an embedded margin of 35-40% that should show in reported profit as projects finish. The big swing projects, Nepean Sea Road and Dubai, keep slipping.

Trigger	What management said	Evidence so far	Time horizon	Strength
Presales growth	25% a year, every year	Delivered FY25 and FY26; H1 FY27 up 19% before launches	Ongoing	Strong: two years met
H2 FY27 launches	Rs 7,000 cr of launches, H2 weighted	Not yet launched	Q3-Q4 FY27	Moderate: H2 has to deliver
Nepean Sea Road	Launch before end FY26 (said Nov 2024)	Now promised before end FY27; demolition started	Q4 FY27	Weak: one year late already
Dubai Downtown	Launch FY26 or early FY27	Launch-ready but parked indefinitely	Unknown	Unproven

3b. Trigger check

Trigger type	Yes/ No	What was said (date)
Debt cut	No	
New business	No	
Margin up	Yes	Embedded EBITDA margin of 35-40% on recent presales will flow through as projects reach recognition (Jul and Oct 2026)
New management	No	
New capacity	Yes	Rs 7,000 cr of launches planned for H2 FY27 at Mira Road, Andheri, ODC and Borivali (27 Oct 2026)
Big orders	No	
Turnaround	No	
Promoter buying	No	

The single concrete driver: About Rs 7,000 cr of new launches in the second half, led by Mira Road and Andheri, keeps presales growing at about a quarter a year.

4. Management consistency scorecard

Period	What was promised	What actually happened	Verdict
Nov 2024	Nepean Sea Road, Dubai and Bandra launch before end FY26	None launched by March 2026	Missed
May 2025	FY26 presales grow like FY25 (about 25%)	FY26 presales up 25%	Delivered
May 2025	Collections much higher in FY26	Collections up only 14%	Partly
Jan 2026	5th Avenue ODC launch	Altavia launched	Delivered
Apr 2026	Dubai launch ASAP	Pushed to upcoming, no date	Missed
Jul 2026	FY27 presales growth 25%	H1 up 19% with launches back-ended	Too-early

Narrative drift: The presales story is steady and the 25% guide has been met. The trophy projects drift: Nepean Sea Road has slipped a year and Dubai keeps moving, now blamed on the Middle East situation. Collections keep trailing sales.

5. Bottom line

Durable earning trigger? → YES

Presales have compounded at the guided rate for two years and the land bank covers several years of launches. The H2 launches are the next proof.

Management consistent? → MAYBE

The core guidance is delivered, but launch dates for the flagship projects keep slipping and collections lag what was promised.

6. Checkpoints for next quarter

- Mira Road Belvedere Park and Andheri project launch by March
- Nepean Sea Road gets RERA and launches before March 2027
- Full-year presales growth close to the 25% guide
