Veegaland Developers Ltd

Concall Tracker · Q2 2027 · first report

1. Snapshot

Kerala homebuilder and part of the V-Guard Group (founder and vice chairman Kochouseph Chittilappilly, who also founded V-Guard Industries and Wonderla Holidays). It builds and sells apartments, many under its 'biophilic' green-design theme, across four Kerala cities including Kochi and Kozhikode. It has 25 projects: 10 completed, 12 ongoing, 3 upcoming. Listed on NSE and BSE in September 2026.

Number	Value	What it means
Market cap	Rs 676 cr	What the market values the whole company at; a small company.
Sales, FY26	Rs 251 cr	Up about 30% on FY25 (Rs 192 cr), which itself was up about three-quarters on FY24.
Net profit, FY26	Rs 27 cr	Up from Rs 20 cr.
Sep 2026 quarter revenue	Rs 106.34 cr	Up 28.66% on a year ago and 43% on the June quarter (company presentation).
Sep 2026 quarter EBITDA margin	20.9%	Up from 15.4% a year ago (company figure, which includes other income).
Sep 2026 quarter profit	Rs 15.99 cr	Up 92% on a year ago.
Debt-equity	0.15x	Down from 0.32x at FY26 end: borrowing is small next to shareholders' money after the IPO.
Promoter holding	66.5%	First quarter on record after listing.

2. Concall coverage

No concall transcripts were available on Screener. This report is based on a global web deep-dive.

Sources used:

- Screener.in company page and financial tables (VEEGALAND), including the Concalls list: the Nov 2026 call shows a PPT and an audio recording but no transcript yet
- Investor presentation, Q1 FY27 results (BSE/NSE filing, 6 Oct 2026)
- Investor presentation, Q2 and H1 FY27 results (BSE/NSE filing, 7 Nov 2026)
- Chittorgarh.com IPO page: fresh issue of about Rs 210 cr, open 10-15 Sep 2026, listed on NSE and BSE on 18 Sep 2026

Latest update highlights: Q2 FY27 results presentation (filed 7 Nov 2026)

- Pre-sales (bookings) Rs 174.34 cr, up 37.56% on a year ago and 34% on the June quarter; area booked 1.89 lakh sq ft, up about a fifth.
- Gross collections from buyers Rs 125.22 cr, up 88%. Average price realised about Rs 9,002 per sq ft, up 17.3% on a year ago.
- Contracted order value Rs 1,086.79 cr across 12 ongoing projects, of which Rs 501.35 cr is not yet booked as revenue (it flows in as construction progresses). At end-June these were Rs 910 cr and Rs 431 cr.
- New launch Amora at Maradu, Kochi (premium 3 BHK, estimated value Rs 150 cr) made up about a third of H1 FY27 pre-sales. Three upcoming projects, Sarovar, Fortune and East Fort, have land acquired with approvals in progress (estimated value Rs 450 cr).
- Cash and bank balances rose sharply after the IPO; short-term borrowing fell to Rs 36.3 cr from Rs 58.4 cr. H1 operating cash flow Rs 55.8 cr against an outflow a year earlier.
- An earnings call was held in November 2026 (audio on the company site), but its transcript was not yet published when this report was written.

Business mix & capacity

Domestic vs export: All projects are in Kerala, so effectively all sales are domestic.

Capacity use: Not applicable to a developer. 18.58 lakh sq ft is under development across 12 ongoing projects (994 units), with 212 units in three upcoming projects.

3. Earning Trigger thesis

The public record points to one driver: a growing pile of booked apartment sales that turns into revenue as buildings go up. Pre-sales have been rising for several quarters, the unrecognised part of the order book grew from Rs 431 cr to Rs 501 cr in one quarter, and IPO money has cut borrowing. That is already showing in revenue and profit. With no transcript yet, there are no management statements to test, so this rests on the company's own presentations.

Trigger	What management said	Evidence so far	Time horizon	Strength
Booked sales flowing into revenue	Order book 'provides strong revenue visibility' (Nov 2026 presentation)	Unrecognised revenue Rs 501 cr vs FY26 sales Rs 251 cr	1-3 years	Strong: already contracted
New launches (Amora, then three upcoming projects)	New launches 'sustain our momentum' (Nov 2026 presentation)	Amora about a third of H1 pre-sales	FY27-FY28	Moderate: approvals still pending for the next three
Higher prices per sq ft	Realisation up 17.3% year on year	Gross margin 30.9% vs 26.4%	Ongoing	Unproven: depends on Kerala housing demand

3b. Trigger check

Trigger type	Yes/ No	What was said (date)
Debt cut	Yes	Debt-equity down to 0.15x from 0.32x, 'Lower leverage' (Nov 2026 presentation).
New business	No	Same business: Kerala apartments.
Margin up	Yes	EBITDA margin 20.9% vs 15.4% a year ago (Nov 2026 presentation); reasons not explained without a call.
New management	No	No change in leadership disclosed.
New capacity	No	Not applicable; upcoming projects still awaiting approvals.
Big orders	Yes	Contracted order value Rs 1,086.79 cr, Rs 501.35 cr yet to be recognised (Nov 2026 presentation).
Turnaround	No	Profitable throughout.
Promoter buying	No	No promoter purchase disclosed; the IPO was a fresh issue.

The single concrete driver: A growing book of sold apartments, Rs 501 cr not yet counted as revenue, that flows into the profit and loss account as the 12 ongoing projects are built.

3c. Margin bridge

EBITDA margin was 20.9% in the Sep 2026 quarter against 15.4% a year earlier, with gross margin 30.9% vs 26.4% and average realisation up 17.3%. The presentation does not say why or whether it will last, and there is no transcript yet, so treat it as (one-off) until the call confirms it.

4. Management consistency scorecard

Period	What was promised	What actually happened	Verdict
	Pre-sales momentum; Amora launch		Delivered

Period	What was promised	What actually happened	Verdict
Q1 FY27 presentation (Oct 2026)		Q2 pre-sales up 34% on Q1; Amora about a third of H1 pre-sales	
Q1 FY27 presentation (Oct 2026)	Order book gives revenue visibility (Rs 910 cr total, Rs 431 cr unrecognised)	Q2: Rs 1,086.79 cr total, Rs 501.35 cr unrecognised; revenue up 43% on Q1	Delivered
Nov 2026	Three upcoming projects (Sarovar, Fortune, East Fort) with approvals in progress	To be checked	Too-early

Narrative drift: Only two quarters of public communication as a listed company, both investor presentations, so there is no real track record of promises to judge. What was shown in October held up in November.

5. Bottom line

Durable earning trigger? → YES

A concrete, contracted driver is already in the numbers: bookings, collections and the unrecognised order book all grew, revenue and profit rose sharply, and IPO money cut debt. The open question is whether Kerala housing demand keeps pre-sales rising once Amora's launch boost fades.

Management consistent? → MAYBE

Too new to judge. The two presentations since listing are consistent with each other and the numbers backed them, but there are no concall transcripts yet and no stated guidance to hold management to.

6. Checkpoints for next quarter

- Pre-sales keep growing on a year ago
- Unrecognised order book stays at or above the September level
- At least one of Sarovar, Fortune or East Fort gets approvals and launches

This is not investment advice. Do your own due diligence.
