Latest concall highlights - Q2 FY27 (3 Nov 2026)

- Revenue up only 5%: heavy rain and floods at Vapi and Daman disrupted the factories (about 3-4% of Q2 sales lost) and the festive season shifted into Q3.
- Killer exclusive outlets had about 10% negative same-store sales for the half; management expects nine months to be roughly flat.
- Vision 2028 reviewed: revenue and profit targets kept, but the store target cut from 900 to 800; Lawman from 175 to 125 stores, Kraus raised from 50 to 75, K-Lounge to be phased out.
- Kraus grew over 25%, with margins in line with the company; early exports to the Middle East and online traction.
- Full-year growth now 'double digit', with management no longer sure of the 15% it was confident of earlier. Pushing fewer discounts and more full-price sales.

Business mix & capacity

- Domestic vs export: almost entirely domestic; Kraus has just started small exports to the Middle East.
- Capacity: own factories at Vapi and Daman; utilisation not given. Retail 55% / non-retail 45% of sales this quarter.

3. Earning trigger thesis

Vision 2028 targets Rs 1,500 cr revenue by FY28 with 17-18% operating margins, through more brand stores, the Kraus women's brand, e-commerce, revamped Lawman and Integrity, and possible acquisitions. FY26 delivered on growth, helped by Kraus. FY27 has stumbled: floods, a weak consumer and negative same-store sales, with the store plan now trimmed.

Trigger	What management said	Evidence so far	Time horizon	Strength
Kraus women's denim	Expand Kraus into all channels	Growing over 25%, margins in line, store target raised to 75	Now	Moderate
Vision 2028 (Rs 1,500 cr by FY28)	Revenue and profit targets kept	FY26 up 20.9%; Q2 FY27 up only 5%; store target cut	FY28	Moderate, now under strain
Less discounting	More fresh sales to lift EBITDA	Q2 margin 21%, EBITDA up 12% on 5% sales growth	Ongoing	Moderate
Acquisitions	Value-accretive deals over three years	Nothing new	Unknown	Unproven

3b. Trigger check

Trigger type	Yes/No	What was said (date)
Debt cut	No	-
New business	Yes	Kraus women's denim growing over 25%, entering exports, online and MBOs (Nov 2026)
Margin up	Yes	EBITDA up 12% on 5% revenue growth, margin 21% (Nov 2026)
New management	No	-
New capacity	No	Store target cut, not added
Big orders	No	-
Turnaround	No	-
Promoter buying	No	-

Single concrete driver: The Kraus women's denim brand and fewer discounts across Killer and the other brands, toward the Vision 2028 revenue target.

3c. Margin bridge

EBITDA margin rose to about 21% as the company cut discounting and controlled costs; Kraus earns margins in line with the rest. Management says it wants more fresh, full-price sales to keep improving EBITDA. (lasting)

4. Management consistency scorecard

Period	What was promised	What actually happened	Verdict

May 2025	Vision 2028: Rs 1,500 cr revenue by FY28, 17-18% margin	Targets kept; margin above range so far	Too-early
Aug 2025	FY26 growth 18-20%	FY26 growth 20.9%	Delivered
Aug 2025	Margin 17-18%	Above 19% in quarters	Delivered
Aug 2026	FY27 growth about 15%	Now only 'double digit', not sure of 15%	Partly
2025	900 exclusive stores by FY28	Cut to 800; K-Lounge phased out	Dropped

The headline Vision 2028 numbers have stayed put, and FY26 was delivered. But the pieces underneath keep moving: the K-Lounge family-store idea is being dropped, Lawman's store plan halved, and this year's growth hope trimmed within a quarter. Tone is still confident but more guarded.

5. Bottom line

Durable earning trigger? → MAYBE

Kraus is a real, growing addition and margins are rising on less discounting. But the core Killer stores are shrinking on a same-store basis, and the growth target for this year has softened.

Management consistent? → MAYBE

Delivered FY26 growth and margins as promised, but has already trimmed this year's growth hope and reworked the store plan.

6. Checkpoints for next quarter

- December quarter revenue grows in double digits after the festive shift
- Killer same-store sales flat or better for nine months
- Kraus keeps growing faster than the company
