Dr Agarwals Health Care Ltd

Concall Tracker · Q2 2027 · first report

1. Snapshot

India's largest chain of eye hospitals: 324 facilities (305 in India across 172 cities, the rest mostly in Africa), doing cataract, refractive (glasses-removal), retina and cornea surgery, plus optical and pharmacy sales. Grows mainly by opening its own new centres (greenfield) on leased premises. Listed February 2025; its listed subsidiary Dr Agarwal's Eye Hospital merged into it from 1 November 2026.

Number	Value	What it means
Market cap	Rs 17,569 cr	What the market says the whole company is worth.
Q2 FY27 revenue	Rs 655 cr	Sales for the quarter to Sep 2026, up 31.4% on a year ago.
Q2 FY27 EBITDA (Ind AS)	Rs 186 cr at about 28%	Operating profit up 28.8%; about 21.5% before lease accounting (pre-Ind AS).
Q2 FY27 profit	Rs 57 cr	Up 55.8%, margin 8.5%.
Same-store sales growth	18.8% in Q2	Existing centres alone are growing fast: about 8% more patients, 9.5% higher value per patient.
Stock P/E	159x	Very rich; the market pays up for the store roll-out.

2. Concall coverage

Quarter	Date	Transcript read?
Q3 FY25 (maiden call)	Feb 2025	Yes
Q4 FY25	Jun 2025	Yes
Q1 FY26	Aug 2025	Yes
Merger call	28 Aug 2025	Yes
Q2 FY26	Nov 2025	Yes
Q3 FY26	4 Feb 2026	Yes
Q4 FY26	May 2026	Yes
Q1 FY27	Aug 2026	Yes
Q2 FY27	5 Nov 2026	Yes, latest call read in full ★

Every call since the February 2025 listing, nine in all, about 21 months.

Latest concall highlights: Q2 FY27 (call held 5 Nov 2026)

- Revenue Rs 655 cr (+31.4%), Ind AS EBITDA margin steady at about 28%, profit Rs 57 cr (+55.8%), despite start-up losses at 51 new surgical centres (about Rs 42 cr in H1).
- Record expansion: 21 facilities added this quarter (19 own, 2 bought), 39 in H1. FY27 target raised to 65 facilities including 55 surgical (from 60 and 40); capex raised to Rs 500 cr from Rs 400 cr.
- Same-store growth 18.8%; high-end cataract surgery now about 30% of cataracts (18% in FY24); SMILE refractive +41.9%.
- North India (Delhi NCR now 15 centres in 15 months) +60%; West +30%; first acquisition in a while: two Delhi centres for Rs 55 cr (Rs 13.5 cr revenue).
- The merger with the listed subsidiary is done; its shares stop trading 17 November.

Business mix & capacity

Domestic vs export: India about 90% of revenue, Africa about 10.4%. Payer mix: 63% cash, 28% insurance, 9% government schemes.

Capacity use: Not given as utilisation. 2024-26 centres are ramping: FY25 cohort grew 67.8%, FY26 cohort still loss-making; surgical centres average Rs 75-80 lakh a month at maturity.

3. Earning Trigger thesis

The trigger is a repeatable roll-out: open roughly one eye centre a week in existing and new cities, while existing centres grow 17-19% a year on more patients and pricier surgery (robotic cataract, SMILE). Both are visible in the numbers. The risks are new centres' start-up losses, a very rich valuation and possible price caps on lenses.

Trigger	What management said	Evidence so far	Time horizon	Strength
Greenfield roll-out	65 facilities in FY27 (raised)	39 in H1	FY27	Strong
Same-store growth	Premiumisation plus volume	18.8% SSSG; high-end now about 30%	Now	Strong
North and West expansion	Delhi NCR and Mumbai push	North +60%, West +30%	1-3 yrs	Moderate: young centres
Margin	Stable while investing	About 28% Ind AS for a year	Ongoing	Moderate

3b. Trigger check

Trigger type	Yes/No	What was said (date)
Debt cut	No	
New business	No	
Margin up	No	Margin stable at about 28%
New management	No	
New capacity	Yes	21 facilities added in Q2; FY27 target raised to 65 including 55 surgical (5 Nov 2026)
Big orders	No	
Turnaround	No	
Promoter buying	No	

The single concrete driver: Opening about one new eye centre a week, mostly surgical, while existing centres grow 17-19% a year on more patients and pricier surgeries.

4. Management consistency scorecard

Period	What was promised	What actually happened	Verdict
Jun 2025	FY26 revenue growth 20%+	FY26 revenue crossed Rs 2,000 cr, about 20%+	Delivered
Jun 2025	55-60 facilities in FY26	"One new facility every week" in FY26	Delivered
Jun 2025	EBITDA margin stable	About 28% throughout	Delivered
Aug 2025	Merger in 12-14 months	Effective 1 Nov 2026	Delivered
Feb 2025	Chennai flagship in 9-10 months	Running; PPP department inaugurated	Delivered
May 2026	60 facilities incl. 40 surgical in FY27	39 in H1; raised to 65 / 55	Too-early

Narrative drift: Unusually steady for a young listing: same message every quarter (greenfield-led, stable margin, premiumisation), the numbers have matched it, and guidance has been raised rather than cut. Disclosure is detailed (cohort revenue, losses by cohort, SSSG split).

5. Bottom line

Durable earning trigger? → YES

The roll-out is working: same-store growth near 19% and newer cohorts ramping fast, with expansion guidance just raised. The question is price, not delivery.

Management consistent? → YES

Every dated promise in the 21 months since listing was met, including the merger timeline, and guidance has only gone up.

6. Checkpoints for next quarter

- Second-half facility additions keep pace with the raised target
- Same-store growth stays in double digits
- EBITDA margin holds near 28% despite start-up losses
